
Sesqui®: Allergens Statement

The raw materials used to produce WE Soda Alkali sodium sesquicarbonate neither contain, nor do we purposely add in processing, any allergen (e.g., no milk or milk products, peanut products, tree nuts, grains, fish or seafood, shellfish, soy, seeds or seed products). WE Soda does not add, nor do the raw materials or process contain, any sensitizing agents (e.g., FD&C yellow No. 5 or No. 6) or fragrances. We do not add sulfites, monosodium glutamate or other preservatives/additives. While we do not test for these substances in our final product, knowledge of our starting materials and process lead us to believe that they would not be present.

Please see the following page for a complete checklist of potential allergens and their presence/absence in our sodium sesquicarbonate products.

Read the product Safety Data Sheet (SDS) prior to using the chemical.
